AGREEMENTS

2.1 County Requirements. The Parties acknowledge that, based on the planning performed to date, the goals, attributes and components of the Project have evolved from those initially set forth in the description of the County Requirements attached as Exhibit A to the Development Agreement and referred to in the Construction Administration Agreement. The key modifications to the County Requirements are identified in Exhibit H to the Final Project Finance Approval Agreement and the Parties hereby approve the modified County Requirements.

2.2 County Design Approval Procedures. In order to expedite the design and planning process, the forty-five (45) day approval period referred to in Section 4.9 (including subsection 4.9.5) of the Construction Administration Agreement for the County's review and approval of Design Documents is revised to be a thirty (30) day period, and the sixty (60) period

approval period referred to in Section 4.14 for the County's review and approval of the Construction Documents is also revised to be a thirty (30) day period.

2.3 Design Options. With regard to the requirement for three (3) Design Options for the exterior design theme of the Facility, the County acknowledges that in the iterative planning and design process undertaken to date, Developer has prepared and County has reviewed multiple alternative exterior design themes, and accordingly, notwithstanding the requirement in Section 4.12 or any other provision of the Construction Administration Agreement with regard to the preparation of distinct Design Options, Developer shall have no further obligation to prepare and present distinct Design Options as part of the Conceptual Plans or otherwise.

2.4 GMP Documents.

2.4.1 The Parties acknowledge and agree that they have approved the GMP Documents (which include the Design Development Documents), described in Exhibit D to the Final Project Finance Approval Agreement, which have been delivered to the Contractor (design-builder) under the Construction Agreement (a design-build agreement in a bridging design-build format). The Parties further acknowledge and agree that said GMP Documents are consistent with the modified County Requirements referenced in Section 2.1 above.

2.4.2 The Parties acknowledge and confirm that, in accordance with Section 4.9.4 of the Construction Administration Agreement, if and to the extent that any aspect or component of the GMP Documents conflicts with or otherwise materially modifies the County Requirements, then the County Requirements shall be deemed to be amended to incorporate such aspect or component for purposes of further application of the County Requirements for the purposes of the Construction Administration Agreement.

2.5 Development Manager. If the County terminates the Construction Administration Agreement or otherwise terminates Developer for cause, the County may, in its sole and absolute discretion, elect to continue to contract with MMPI as the development manager for the Project, and MMPI shall have the same duties and responsibilities as "development manager", which duties and responsibilities shall be upon the same terms and conditions (including compensation) as are set forth in the Construction Administration Agreement, and specifically including Sections 2.3.1 and 8.1.

The County consents to Developer's amending its agreement with the Bridging Consultant so as to delete from the Bridging Consultant's duties the requirement that it review and certify Contractor pay applications. Developer shall be responsible for the review and certification of Contractor pay applications.

2.7 Construction Cost Reserve Fund. The first sentence of Section 9.1.5 of the Construction Administration Agreement is hereby deleted and replaced with the following:

During the Construction Period, the County shall deposit into the Construction Cost Reserve Fund a portion of the Supplemental Payments otherwise payable to Operator pursuant to the Operating Agreement, up to a total of not more than Six Million Five Hundred Thousand Dollars (\$6,500,000), such deposit to be made in equal monthly installments (or,

It is currently estimated that the Substantial Completion Date will be thirty-three (33) months following date Lease execution date, or thirty-two (32) months from the Lease Commencement Date, assuming that the notice to proceed is given to the Contractor not later than January 3, 2011. If mobilization or construction at the Site commences on or before December 15, 2010, then the monthly installments shall be prorated for the month of December.

2.10 Surety Bond. In lieu of the commitment from the surety to supply the Surety Bond for the Project in an amount not less than the GMP in accordance with Sections 2.6.4 and 5.5 of the Construction Administration Agreement, the County and Developer hereby accept a corporate guarantee by the parent of Contractor, as set forth in the Project Finance Approval Agreement.

2.11 Delivery of Site. The County shall deliver the entire Site, free of all possessory rights of third parties and without occupancy by any Person, ready for commencement of abatement, demolition and construction Work, not later than January 3, 2011. The County shall use all commercially reasonable efforts to deliver portions of the Site for commencement of such Work prior to January 3, 2011, and in that regard agrees to enter into a license agreement with Developer, on terms mutually and reasonably satisfactory to the Parties, to permit the commencement of Work on unoccupied portions of the Site prior to January 3, 2011. It is acknowledged that the GMP under the Construction Agreement is premised on Developer's delivering the final notice to proceed with all Work to Contractor not later than January 3, 2011. All costs incurred by the County in achieving the County's timely delivery of the Site as described above and all increased costs incurred by Developer under the Construction Agreement due to any failure of the County to deliver the Site within such time frame and in such condition shall be the responsibility of the County, whether paid from the County Budget Items (as defined in the Final Project Finance Approval Agreement) or from other funds of the

County. Notwithstanding the foregoing, however, any such claims by Developer for increased costs shall meet the requirements of Article 15 of the Construction Agreement to be eligible for reimbursement by the County.

2.12 No Personal Liability. Section 18.6.2 is hereby deleted in its entirety and replaced with the following:

No covenant, obligation or agreement under this Agreement shall be deemed to be a covenant, obligation or agreement of any present or future member, officer, agent or officer, or employee of the County in other than their official County position, and neither the members of the County Board of County Commissioners nor any County official executing this Agreement shall be liable personally for or by reason of the covenants, obligations or agreements of the County contained in this Agreement. No covenant, obligation or agreement under this Agreement shall be deemed to be a covenant, obligation or agreement of any member or manager of Developer other than in such capacity as member or manager, and neither any member, manager, Affiliate or agent of Developer (or any member, manager, partner, officer, director, employee or shareholder of any such member, manager, Affiliate or agent) nor any individual person executing this Agreement on behalf of Developer shall be liable for or by reason of the covenants, obligations or agreements of Developer contained in this Agreement. Section 18.6.1 shall not be a limitation on this Section 18.6.2.
